Good morning,

I've attached a check-in log for your reference. While the comparison of samples will not be ready until tomorrow, I have product type I can provide based upon the gas chromatography data -

- 1) Samples 1, 2, 3, 4, 5, 6, 10, 11, 12, 18, 19, 20, 21, 22, 23, 24, 25, and 26 contain primarily lubricating oil.
- 2) Samples 13 and 14 contain lubricating oil but the quantity is not sufficient for comparison purposes.
- 3) Samples 7, 8, 9, 15, 16, 17, and 27 do not contain a quantity of petroleum oil detectable by the analysis conducted.

I will be in touch tomorrow with the final report.

Best regards,
Kristy
